- CSS
- SCSS
- TailwindCSS
- JavaScript
- TypeScript
- React
- Redux
- NextJS
- Github
- Git
- SQL
- C#
- Firebase

LANGUAGES

- Polski - native

- English B2

ABOUT ME

My name is Dominik, I am 20 years old and I am currently in my first semester of studying Applied Informatics at WSEI in Krakow, Poland, and I am about to start my second semester. I am passionate about developing my skills in Next.js and working intensively on student projects in C#. I have been focusing on Next.js for the past few months, and my previous experience was working with Angular.
Initially I explored hardware, but over time I discovered that it is software development that gives me the most satisfaction. I want to create things that I will be proud of, so I decided to develop my skills in this area.

PROJECTS

Foodify

Next.js-based application with Firebase integration for real-time authorization and data management. The goal of the application is to use the artificial intelligence technology available on the Hugging Face platform to automatically generate recipes.

`NEXTJS` `TAILWINDCSS` `FIREBASE` `AI` `TYPESCRIPT` `VERCEL` `HUGGING FACE`

CRX

Project in React with a cryptocurrency theme

`HTML` `CSS` `REACT` `FETCH API` `MATERIAL UI` `RECHARTS` `LOCAL STORAGE`

AQUASMART.COM.PL

Wordpress

- Adding a plug-in that allows you to change the language on the entire page by clicking on the flag of the language.
- Changing the site in terms of color, layout.
